**MAINT VESSELS**  
Institute Crews Are  
Easy to Obtain.

**BY LORIMER HAMMOND.**  
Chicago Tribune Press Service.  
LONDON, Aug. 23.—The British sea-  
men are not meeting the suc-  
cess expected by the strikers.  
All ships so far have  
left on schedule,  
mostly with their  
original crews.  
Substitute crews  
seem easy to ob-  
tain. Develop-  
ments clearly in-  
dicate that sailors  
and miners are work-  
ing together to  
bring the govern-  
ment face to face  
with a situation in  
which the crisis is  
not only economic  
but political as well.

Unionists openly say: "If  
the government can control the state,  
we can control the state."  
The British sea-  
men's strike gives added sig-  
nificance to the home govern-  
ment's political position. The British  
seamen are at home and are  
investigating the shipping  
industry. This situation learns that  
the seamen were once leaders of the  
L. W. W. are now leading  
the labor disorders.

**AMERICAN COVIL.**  
Harry, former general secre-  
tary of the L. W. W., now a national  
leader for the British minority  
seamen, as well as being an out-  
standing personality in the  
movement, is in Leavenworth  
prison, to which he was sen-  
tenced by Judge Landis of Chicago  
in 1923. He is secretary of the  
seamen's union and was arrested on charges of  
organizing a strike on the great lakes.  
He was later deported to England.

**MAINT VESSELS.**  
The seamen held a mass meeting at  
their hall today, endorsing in full  
the demands, announced yester-  
day. The shipping federation an-  
nounced that 50,000 men are ready to  
go to sea to replace the strikers.  
The seamen have tied up sev-  
eral ships.

There is no question, but that the  
seamen's strike is part of a general  
movement of the communist party to  
control of the government by  
force of transportation. Since Mr.  
Hardy, the leader of the miners, boasts  
that he will bring the conservative  
seamen to his knees before the  
end of 1925.

## BANKER IS NEW FIGURE IN WEIRD PHILLIPS AFFAIR

Laughs at Plot Charges  
Collar Man Makes.

New York, Aug. 23.—(Special.)—Max Phillips, millionaire sportsman and collar manufacturer, who yesterday caused the arrest of three women and a man after declaring that he was being made the victim of a plot to ruin his reputation, carried an automatic revolver today as he played polo on his estate near Red Bank, N. J. Eight detectives kept guard and drove strangers away.

Phillips tonight announced the employment of former Secretary of State Charles Evans Hughes as his counsel. Joseph S. Marcus, president of the Bank of the United States, 320 5th avenue, injected himself into the mystery with an announcement that he would make a formal statement tomorrow concerning Phillips' charges that "a prominent New York banker was head of a conspiracy to ruin him in business."

Mr. Marcus is 63 years old and is well known as a banker. His son, Bernard K. Marcus, who is vice president of the Bank of the United States, married Miss Libby M. Phillips, daughter of Mr. and Mrs. Isaac L. Phillips, and a niece of Max Phillips.

Banker Is Amused.  
The older Marcus expressed amusement at the idea of his name being linked with the episode in Mr. Phillips' Red Bank house Friday night and Saturday morning, when concealed detectives listened through dictaphones to an attempt by women operatives of a private detective agency to lure Mr. Phillips into an unconventional yachting trip.

Phillips caused the arrest of Frank H. Berg, head of the Court Detective agency of New York City, and three women, charging an attempt to inveigle him into a violation of the Mann act.

Mr. Phillips' associates let it be known also that they were on the watch for two young women in a roadster with a Rhode Island license, who were reported as heading for the polo field in an attempt to see whether their charms would assist the alleged conspirators more than the attractions of Mrs. Berg, Mrs. Johnston, and Mrs. Hildebrandt, the three women under arrest. The new chargers failed to appear.

Twofold Plot Charged.  
Mr. Phillips today charged that the alleged conspiracy to ruin his business had taken two forms. The first, he said, was to hold him up to ridicule as a person who sought advice from spiritualist mediums, as a result of his having been in the apartment of Mrs. Margaret Campbell when she was arrested on a charge of predicting the future on Aug. 11.

The second, he said, was to represent

him as a morally unfit person by entangling him into an affair which would cause his arrest for a Mann act violation. He implied that the purpose of the alleged conspiracy was to weaken his control of the Phillips-Jones company, makers of Van Heusen collars, of which he is president, by destroying the stockholders' confidence in him.

Berg, the detective agency head, who was arrested, said the arrest of himself and the three women was unjustified. If there were a plot against Phillips, he said, it was absurd to think that women would be engaged to catch the collar manufacturer.

"When I was employed in this matter," Berg added, "it was for a purpose by no means hostile to Phillips or his interests. I have never held any conferences on this subject in any banker's home on West End avenue or elsewhere, and I can say that when the identity and purpose of my client are revealed Max Phillips will find it urgent to give earnest consideration to the matter of abduction, false arrest, and libel that figured so melodramatically in Friday night's outrage."

## WOMAN HELD IN CASE OF GUEST DISCOVERED DEAD

The body of Adam Thelant, 33 years old, was found early yesterday morning at the foot of a flight of stairs at 10436 Edmore avenue. His skull had been fractured and the Kensington police are of the opinion that his head crashed against the wall as he fell down the stairs.

Sgt. Thomas H. Cassidy, who conducted the investigation, took into custody Mrs. Katie Wlenches, who lives in the second floor flat. Her daughter, Annie, discovered the body of Thelant when she returned home from a party. Indications were that he died several hours earlier.

Sgt. Cassidy learned that Thelant was a former roomer at the Wlenches home and went there to visit Mrs. Wlenches. Her connection with the death was still a mystery last night as she refused to talk about the matter. The police are holding her on the possibility that she may have fought with him and knocked him down the steps.

## CHICAGO PUPILS DEFEAT 3 CITIES IN READING TEST

Reading, with the ability to understand, was better developed in the Chicago public schools than in the school systems of three other metropolitan cities in the country during the past

year, according to the results of a test conducted by Super William McAndrew, which are made public in another chapter of his annual report.

The test was given to all eighth grade pupils in Chicago, New York, Columbus, and St. Louis. Chicago pupils averaged 70 per cent and the next highest average was 67.3 per cent. The lowest mark was 53.4.

Chicago's papers were marked by

Columbus, New York, and St. Louis, and the scores of these cities were graded by Chicago. In accordance with the agreement, the marks of the other cities are given without revealing to what cities they belong.

The test was a short story of the obligations of those educated in the public schools. Questions were asked to determine how much the child got out of the reading matter.

To the Merchants Visiting the Convention of the National Association of Retail Clothiers and Furnishers

AGAIN we take pleasure in welcoming our fellow merchants to Chicago.

We shall consider it a privilege to show you through our Chicago stores, on Michigan Avenue and in the Hotel Sherman.

Washington, D. ## COMMUNAL LAND LAWS OF MEXICO TO BE ABOLISHED

Calles Drafts Change in Constitution.

BY JOHN CORNYN.

(Chicago Tribune Press Service.)  
[Copyright, 1925, by The Chicago Tribune.]  
Mexico City, Aug. 23.—After five years of waiting and several abortive attempts to reform article 27 of the constitution signed at Queretaro in 1917, the article is to be radically changed, if a bill drawn up by President Calles and presented to the permanent commission of congress is passed by congress which meets next month. As Calles' party controls congress and the radical leaders of the agrarian party have been removed or sent abroad on government commissions, it is virtually certain that congress will pass the bill.

Article 27, the basis of agrarian activities, has given more international trouble than all the rest of the constitution of Queretaro.  
Calles Communal System Fails.  
In the preamble of his bill, President Calles, while giving full approbation of the agrarian law, declares: "In the moments of struggle when the law was passed, the object of the bill was to give lands to people sufficient for their needs. The best way of making use of lands was not possible then, nor was relaxation of this prudent. The lands were given under a communal provision so as to give the peasants immediate possession. Attempts at community life have produced the firm conviction that if the system is continued it would make impossible the reconstruction of the country. The belief has also grown that the agrarian problem is due to the lack of confidence of the peasants, caused by the

insure possession of lands and the possibility of corruption on the part of managers of communal lands, who have often sacrificed the interests of the community to personal ends."  
President Calles accuses the agrarian leaders of sacrificing the interests of the peasants to local community and political interests, and declares the agrarian movement must be purged of these influences. He insists the peasants must be made to feel the security of possession of lands, as a sense of insecurity causes a neglect of agricultural production. He cites cases of corruption, such as collecting rent from peasants for lands given under the agrarian law, blurring peasants into periodical payments for free lands, and making private use of community funds.

See Death Blow to Reds.  
According to his statement, President Calles' proposed reform of Article

27 will make impossible the reestablishment of vast estates existing previous to the outbreak of the revolution in 1910. The bill provides for the possession of the lands by families, from whom they cannot be taken so long as the people work them and live on them. Therefore, they are not mortgagable nor subject to sale or transfer.

The bill deals a deadly blow to communism, which has been fighting for continuation of the "ejidos" or communal lands. The statement of President Calles on the failure of communal administration indicates that the government has broken completely with communism, which threatened in the time of Carranza to play a big role in the affairs of Mexico.

## A Great Fact in Advertising!

An outstanding fact in advertising is that space costs the same whether you fill it with a good or a poor advertisement. The difference in value is generally traceable to the difference in brains back of the work.

It is likewise true that mediocrity costs the same as excellence in advertising agency service. You pay the same for indifference that you do for skill, alertness, and sound judgment. But the difference in results may mean thousands or millions to the advertiser!!!

We recommend our book "Four Square Advertising" to the business man investigating advertising. It is based on more than twenty years' experience in the relation of advertising to business. We gladly mail it free.

Order your milk in this new kind of bottle—and get lots of good cream with it—with a special spoon that lets you pour pure cream on your cereal or coffee—without a drop of milk mixed with it! Health officials of leading cities now publicly advise hood sealing of all milk bottles, to assure sanitary protection throughout delivery.

## Back Porch Protection!

You've seen the talk about sanitary sealing of all milk for the household that has been printed in The Ladies' Home Journal, Woman's Home Companion, Good Housekeeping and other publications. The standard hood and seal that protects bottles after they have left the hands of the dairymen is a protective measure no one should ignore!

You needn't worry about milk that's poured from a bottle with pouring lip protected. No dirt can sift into the crevice of such a bottle—however long it has stood out in back. That seal in the illustration goes on at the moment of bottling.

"We have always found Wieland milk the best, but the Cream Top bottle has proved a new and welcome convenience in this household."

PROCONSULS FROM  
HILLSBORO, O.

Gen. Andrews of the treasury department, having been given the job of enforcing prohibition throughout the country, has appointed twenty-four administrators to take over the new districts. September 1 the scowls everywhere in the United States, Hawaii and elsewhere under the flag are to be given a new reason for shaking a leg and stepping high and wide.

Some time ago President Coolidge said that his conception of federal and state duties in enforcement was that the federal enforcers should concern themselves with the source of supply and the states should take action against distribution and use. The plans of Gen. Andrews do not indicate that this division of responsibility is to be made. He is responsible. He tried to get some high speed business men to neglect their profits and serve the government at \$1 a year. They did not come forth. He got four new ex-army men to take districts, but most of the men in the new scheme are the men who were in the old one.

The Chicago district retains the Rev. B. E. Ewing of Hillsboro, O. The Rev. Mr. Ewing has been acting here since Percy Owens, chief for the district, was indicted on charges of conspiring with bootleggers to get the stuff in use instead of keeping the customers from it. One of Gen. Andrews' reasons for hunting for the \$1 a year man who was worth half a million to himself in his own business was to procure chiefs to whom the \$60,000 they could get from the trade would not look better than the \$6,000 they could get from the government.

The Rev. Mr. Ewing of Hillsboro, O., will have a district including Chicago and Milwaukee, among other cities. As the story of Hillsboro and its sister village Westerville was told in Saturday's Tribune, it was an interesting account of endeavor in the dry cause. These two villages have been rivals in the production of prohibition procurers for the government of the wet provinces. Hillsboro is in southern Ohio and Westerville in central, and they have been after the demon rum at home and abroad since shortly after the civil war.

Hillsboro may claim to be the home of the Woman's Christian Temperance union and Westerville of the Anti-Saloon league. Hillsboro gave Roy Asa Haynes to the national regulation of personal habit. The villages have furnished the enforcement forces with numerous recruits who thought the regulation of city habits would be more ambitious work than trying to run village picture shows, drug stores, liverys, garages or working on the village constabulary.

It took Westerville and Hillsboro some time to put over the idea that large cities should be run as villages wanted them run, but the Rev. Mr. Ewing is now in Chicago to demonstrate that the doctrine finally is established as an American principle. The cities will take a properly regulated Hillsboro picnic as their standard of decorous life unbending from serious thought and work. The coffee Saturday night.

THE PASSING OF SOUTH  
WATER STREET MARKET.

Chicago's new commission market at Fifteenth and Morgan streets has been officially opened. It cost \$17,000,000; its 144 buildings have been completed in seven months, five months ahead of schedule. Now the commission houses which remain in South Water street between Wells and State streets can move out and the buildings they occupied can be wrecked to make way for the new drive.

The new market will handle foodstuffs more economically than the old one did. That is because the new one was planned and the old one just grew up. When it is remembered that the Chicago market is one of the city's greatest industries, with an annual business of half a billion dollars, the significance of a saving in handling costs becomes apparent. The new market should mean money in the pockets of the farmers and the consumers.

Old South Water street market will soon be only a picturesque memory. It was crowded before daylight, even in midsummer. Dawn was its hour of greatest animation. By late afternoon it was deserted by all but a few street sweepers and scavengers. At nightfall it was a city of echoes and strange scenes. South Water street at night offered the romantic scene that Americans search for in vain when they wander through London's alleys.

South Water street was picturesque but it was blocking progress and it had to go. Its passing is another proof that Chicago is experiencing a remarkable renaissance these days. This is a generation of builders whose ambition and vision is equal to that of the men who rebuilt the city after the fire.

## SUNLIGHT AND SMOKE.

Dr. C. I. Reed of the department of physiology of the University of Chicago has been studying the influence of sunlight upon the chemistry of the blood. It has long been known that sunlight is of the utmost value in the treatment of rickets, tuberculosis and other diseases. Dr. Reed agrees with many other students who believe we should

wear fewer clothes so that the sunlight can have a better chance of reaching the skin. That theory was sensational a few years ago. Now it is quite generally accepted, a fact which suggests that those who are trying to abate the smoke nuisance in Chicago ought to exploit the danger to health inherent in smoke. The campaign thus far has been waged largely with the argument that smoke is ugly and costly. It makes the city dirty and it raises the cleaning bills.

Those are good arguments and in the long run might arouse public opinion. More rapid progress will be made if it can be shown that smoke is a menace to health. A lot of people who don't care how grimy the city gets will sit up and take notice if you tell them the grime is likely to make them sick.

DOWN TO CASES ON WATER  
METERS.

Mayor Dwyer, back home, says he will not call a special session of the city council to pass a water meter ordinance, meet the federal government conditions and escape the threatened reduction in the permitted flow of water. The government said a start must be made by September 1. The council has adjourned until Oct. 25. The war department threatens to make good its stipulation and begin reductions if its terms are not met.

The council has failed to date because the aldermen are afraid they will lose votes or be defeated if they stop water waste and make the citizens mad by metering the consumption. That's natural, but the city is running its water department at a loss. We might assume that it is our own business if we want to make a water subsidy to some of the citizens out of taxation, but the federal government says it is the city takes water for drainage purposes from the lake it is its business how the city otherwise uses the water supply. Mayor Dwyer says that he does not want to be in the position of jamming the ordinance down the council's throat. He hopes the government will extend the time. He says that low water conditions are everywhere. The deficiency in precipitation since Jan. 1 for this district is 4.41 inches. The federal government has made its conditions and we do not see why they should not be enforced. Evidently the council will yield only to necessity. If it can find an out it will take it. The necessity would be demonstrated if there were a reduction of 600 feet a second, as the federal engineer for this district recommends. We might as well get down to brass tacks.

## FRANCE AND ITALY NEXT.

French and Italian debt commissioners probably will be in the United States within the next month or two and the refunding of the Belgian debt will be followed by agreements covering the others. It is reported from Paris that the concession granted Belgium on the moral obligation created at Versailles by President Wilson has encouraged the idea that the moral claim of the French devastations will be heard. Belgium was relieved of interest on the prewar loan because Mr. Wilson had agreed to look to Germany for repayment. Our federal officials say that the Belgian was a particular and peculiar case and that it does not attach to any other negotiations as a precedent. Properly the American policy was settled in the British refunding. There was a time when the United States might have canceled the debts in the belief that it was economically right, that it was expedient, or that it was a just distribution of war expenses.

The nation decided that international obligations stood as written and that a cancellation of debts would be an injustice to the American taxpayer, already sufficiently burdened with a war he did not know much about or know how it came to get him.

Great Britain is paying on that decision and the United States cannot make fish of one and fowl of the other. The debt is a burden to the British taxpayer. It is a burden to British industry and trade in international competition. It has its effect on British armament. It requires additional economies. Great Britain has to tighten its belt and reduce its diet and its household.

To require this of one debtor and not of another would be unjust to the one which is pinched to pay. The United States has not shown any disposition to ruin any debtor nation, and probably won't. But it decided to get its money back instead of checking it off as a war expense, in a common cause, and that decision goes across the table.

## Editorial of the Day

## EQUALITY FOR ALL THE DEBTORS.

The collection of debts is not a pleasant job for a nation. But at least the terms of the Belgian settlement are as fair and generous and as easy as any terms could be. The terms are fair because they recognize the moral obligation entered into by the President of the United States at the peace conference. They are generous because they remit outright at least \$200,000,000 of interest. Thus Belgium will pay the United States government much less for the money she borrowed than the United States government must pay the people from whom it borrowed the money. Finally, the burden of the debt to Belgium is to be paid by the man who has had to pay six years in about \$12,000,000. That, even for Belgium, is a very small amount.

The sums involved are indeed so small that the whole transaction has almost no financial importance. It will affect American taxes hardly at all. Belgian taxes very little, and international exchange only slightly. The importance of the settlement is political and moral because of its effect on the impending French and Italian settlements. Undoubtedly Belgium was sent on ahead in the hope that the strong sentimental claims of Belgium would induce President Coolidge to accept principles which could then be used by the French and Italians to their own advantage.

But the American commissioners have changed nothing in principle. Although they have cut the cost of the prewar debt to Belgium more than 50 per cent, they have done so for a reason that the other debtors cannot use. Belgium was promised special treatment by Wilson. Lloyd George and Clemenceau, and in American commissioners recognize the promise by insisting that it is unique.

This was a wise decision on their part. It reserves all reasonable basis for objection to the settlement in Belgium. At the same time we are spared the inevitable misunderstanding which would be bound to follow any favoritism shown to one ally as against another. To privilege the Belgians is to pay on the same terms as the British.

It is to be hoped that the administration will adhere firmly to the principle of equality and shun any idea of settling the unfunded debts on some such principle as "equality to pay."

We owe it to those nations which have already funded their debts to settle on the same terms with the other debtors, or to revise their terms to meet any advantage we may feel forced to grant in the future.

INSOMNIA AND HIGH BLOOD  
PRESSURE.

A N ability to sleep is natural. At birth a baby and sleep of every man's life is a duration. During the first days of life he sleeps about 22 hours a day. As years accumulate a person decreases the hours allowed to sleep, but the period never gets much below one-third of the total day. Ability to sleep, therefore, is about as physiological as ability to breathe, to hear, to see, to eat, to drink.

When there is insomnia the mind or the muscles, or both, are interfering with a normal process. The habit of sleep interference constitutes the habit of insomnia. The cure consists in learning the art of relaxation.

Most poor sleepers are such because they are the victims of their emotions. They are anxious, afraid, or fretful; they are nervous, tense, or excited; they are restless, tossing and on-edge. Some add to their fears the fear of sleeplessness. These are said to have insomnia. Some, instead of the more passive anxiety emotion called insomnia, develop an active emotion, a fury, an anger, like that which causes a trapped snake to bite himself. They are insomniacs. The remedy for all groups is relaxation. The cure is easy in simple habit insomnia; it is more difficult in insomniacs; it is most difficult with the insomniacs.

In most cases of high blood pressure there are organic changes in the blood vessels, the heart and the kidneys, or in some of these structures. Nevertheless, these emotions are factors in the symptoms and in the effects of high blood pressure. History and experience tell of many who have had strokes of apoplexy when under great excitement. Even the more passive worry and anxiety will send up the blood pressure. The remedy for high blood pressure picture is relaxation.

It is not easy to say what nervousness is, because the word means so many different conditions to different people. To many people the word means "restlessness"—physical and mental. A good illustration of it is the on-edge state of people who are under great excitement. It is a tremble, the eyes move to an unusual degree, the person cannot be quiet and still. The mind matches the body in its restlessness, useless tension. The remedy is relaxation.

## A LINE O' TYPE OR TWO

How is the Line, let the quips fall where they may.

SOMEWHERE across these seas of green  
Lands of exotic beauty lie,  
Enchanted islands only seen  
When tall white ships go by.

So much do I love oceans that bend  
And break on shores remote from me,  
That I would trade my dearest friend  
For any ship at sea.

The world is filled with friends to make,  
Little they care if I go or stay,  
But ships that I can never take  
Will break my heart some day.

TWO STOREKEEPERS FROM KOMORNO.  
When Aaron Guldensack was yet a baby, he had a sickness which made him scabs on the head. From this, he got the name Paruch. With years the sickness went away, but the name stayed. Even after he got rich and had the biggest dry goods store in Komorno, he was still Paruch. Some men would get mad over such a thing; Guldensack made from it an advertisement.

Komorno, you should know, lays so on the Donau, that a few soldiers there from about sleep from going up into Ungarn. So is there a store festing with many cannon and soldiers. And every year came the Kaiser, Franz-Joseph to look on them. Then was in the city holiday, and a big parade in which the Kaiser rode by the store from Guldensack.

One year, Guldensack made his decorations the finest from the whole city, and had too a big sign with these words in Yiddish:

Chutsko, Monarch, du bist a paruch, Lieb ich dich mein Monarch.

The Kaiser saw the sign, but of course he couldn't read Yiddish, so one of his officers set it over on German for him, like my Rosie now sets it over on English for you:

Headed perhaps though I be,  
Loved is my Monarch by the sign, he let call Guldensack, made him compliments, and bought from him goods, which was for Aaron a big advertisement. All the Juden from the city were glad with Aaron over his good fortune, except only Brensch, which had the next biggest store, but next year he put out a sign:

Chutsko, Monarch, du bist a paruch, Lieb ich dich mein Monarch.

Again the officer set it over for the Kaiser, like again my Rosie sets it over for you:  
Monarch, most likely, cockshod though you be, still I love you.

Did Brensch get from the Kaiser compliments, and did he sell him something?

THE NEW PRESIDENT OF THE UNIVERSITY OF CHICAGO.  
Chicago, Aug. 21.—Referring to your editorial of the appointment of Mr. Mason as president of the University of Chicago, the policy outlined and carried out by your paper is sound, and that the Standard Oil company and the United States Steel corporation such strong organizations.

Mr. Mason was a good man for Chicago, no doubt he would have been a better man for the University of Wisconsin. The grass always seems to be greener on the other side of the fence. Furthermore, it would be the waste of money of many men to overlook the talent in their own organization.

The new president of Wisconsin has a reputation as a speaker, whereas Mr. Mason's qualifications seem to me to be very much broader. I am sure that the trustees of Chicago must have had a very good reason for going outside for a man, knowing some of them as I do.

From what I have read about Mr. Mason, it would look as though it were the University of Chicago's gain and Wisconsin's loss—especially in view of the fact that Mr. Mason, in his interview, seems to display a business tact.

C. O. FRISER,  
Chairman of the Faculty, La Salle Extension University.

A REFLECTION ON THE TRUSTEES.  
Chicago, Aug. 21.—It is inconceivable how any board of directors or trustees of any institution should be obliged to go outside of their own organization to select any man to fill any position in the institution from president down. If the board of trustees had themselves been faithful to their own trust and seen to it that their own staff was composed of men suitable to take any position in the organization when the occasion arose.

It is a reflection upon every member of the faculty of the University of Chicago to admit that there is none among their number who has the ability to fill the position of president of the institution.

Let the trustees put themselves in the place of those who have loyalty and faithfully served the university for years, and consider how they would feel individually if they were treated likewise in their own business or organization.

This is not intended in any way to reflect upon the ability of the man selected as president of the University of Chicago. He is not to blame, and would do what any other man would do, accept the place; but it is a reflection upon every man connected with the University of Chicago.

FROM MADISON.  
Madison, Wis., Aug. 20.—Dr. Mason was undesirable as president of the University of Wisconsin because he was a loyal anti-American citizen in his war service, and has been an anti-La Follette man since the war.

Our regents—appointed by the governor in the matter of accepting gifts for the advancement of research in the University of Wisconsin, you can understand why Dr. Mason might not want a presidency under them.

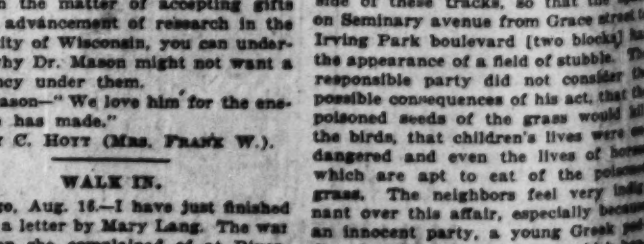

Dr. Mason: We love him for the enemies he has made.  
MART C. HOTT (Mrs. Frank W.).

WALK IN.  
Chicago, Aug. 16.—I have just finished reading a letter by Mary Lang. The exhibition she complained of at River-view park has no such sign outside as "Free, walk in." It says "Walk in." I, too, have heard many my friends talking about this place, and on my last visit to the park I noticed the sign carefully.  
J. SADLER.

POISONED GRASS.  
Chicago, Aug. 15.—A desert has been created just lately in a certain locality on the north side of the city of Chicago for which act the immediate neighbor cannot account. Some unknown party it seems, sprinkled poison on the tract of the Milwaukee and St. Paul railroad, which killed all the grass on and along side of these tracks, so that the grass on Seminary avenue from Grace street to Irving Park boulevard (two blocks) had the appearance of a field of stubble. The responsible party did not consider the possible consequences of his act, that the poisoned seeds of the grass would kill the birds; that children's lives were endangered and even the lives of horses which are apt to eat of the poisoned grass. The neighbors feel very indignant over this affair, especially because an innocent party, a young Grade schooler, lost his splendid horse, which happened to eat some of this grass while his owner was delivering vegetables to a family. Will the responsible party, who read this item, make proper inquiry and reimburse the poor, unlucky possessor?

There are times when the toast of "Here's to yachting" is not with marked enthusiasm.

THE picture life of the world is to be seen every day. The roundup is a daily event. This was an event as the contest of the Chicago Stadium by the Chicago Association of Commerce, which the public has put on the roundup, "Will the stadium will not hold?" When the public saw that a hard fought contest was a pronounced final, he said it cost \$23.00 the roundup on, but the quickly brought it back.

Costly Prices Gild. Silver cups and solid gold belts went to the winners. These were donated by the Chicago Association of Commerce, which the public has put on the roundup, "Will the stadium will not hold?" ## CHICAGO RODEO IS TO BE MADE ANNUAL EVENT

Financial Success Assures Return.

The picturesque life of the old west is to be seen every year in Chicago. The roundup is to be an annual event. This was announced last night at the contest closed in Grant Park stadium by the Chicago Association of Commerce, which sponsored it.

"The public has put its approval on the roundup," William H. Mann, association chairman, said. "We have had a daily attendance of from 50,000 to 75,000. When the public understands that a hard fought contest this is, the stadium will not hold the crowd."

Mr. Mann declared that the rodeo was a pronounced financial success. He said it cost \$200,000 to put the roundup on, but that attendance probably brought it back.

Costly Prizes Given.

Silver cups and solid gold championship belts went to the winners of the contest. These were donated by the Chicago railroad, Hotel La Salle, the Calotex company, Carson Pirie, Scott & Co., Montgomery Ward & Co., the association of commerce, the First National bank, the Yellow Cab Co., and by Edwin F. Carry, president of the Pullman company.

The first winners of the contest, Tex Smith, the big rancher from Las Vegas, N. M., promised to come back and run the rodeo for the city next year.

Winners in Contests.

The winners in the various contests were:

Roundup—Chester Byers (1), Bob

Calen (2), Tommy Kirsh, Leonard Stroud (3), Candy Hammer (4), and Indian Joe Davis (5).

Cowboy's trick and fancy riding—Tad Lucas (1), Leonard Stroud (2), Tommy Weston (3), and Bob Cahn (4).

Little Miss Tad Lucas from Douglas, Wyo., was the only contestant to win two championships, the cowgirl's relay race and the girls' trick and fancy riding contest. In this she took the championships in both instances from Mabel Strickland, who was second in each event.

A part of the rodeo will be presented this afternoon at the Central States fair in Aurora, which opened Saturday and yesterday reported an attendance of 41,412.

## NEW MAIL RATES ARE PROTESTED AS EXORBITANT

### Zoning Policy Is Made Target.

Another group of big customers of the United States mail will be heard at the Congress hotel today by the special congressional committee on postal rates headed by Senator Moses (Rep., N. H.). The committee expects to conclude its Chicago hearings Wednesday and move on to Minneapolis.

Important facts concerning Uncle Sam's mail service are being brought out by the committee's hearings on the new postal rates that became effective April 15.

The marvel of the postal business is the parcel post, established in 1912, for which the postoffice department never was properly prepared and with the expansion of which the department never has caught up. In dollars and cents the parcel post now comprises about 25 per cent of all postal revenues and in weight of mail more than 60 per cent of the total.

Many protests have been made to the committee against the new 2 cent service charge on all fourth class, or parcel post packages. Many others are made against the 2 cent rate for all private postcards. Wholesale complaints are being made against the big increase in rates for second class mail by which newspapers and magazines are sent. All these complaints the committee is trying to balance against the needs of the postal service, which in recent years has shown a large and constant deficit.

In the hearing before the congressional committee on postal rates on Friday at the Congress hotel testimony was given by Max Annenberg, director of circulation for *The Tribune*, the *News*, New York's picture paper, and *Liberty* magazine. Yesterday Mr. Annenberg elaborated the reason why the publications he represents do not use the mails as a distributing agency when any other medium can be obtained.

Rural Service at a Loss.

"*The Tribune*," he said, "has 55,000 farmer subscribers in the five states nearest Chicago. Each pays a yearly subscription of \$5. It has been found impracticable to get the paper to these farmers through any agency but the postoffice. Under the new postal laws it costs \$3.41 per subscriber for postage alone. Counting in cost of white paper and production, each of these farmer subscribers costs *The Tribune* a net loss of \$11.85 annually, or a total of approximately \$650,000. Mr. Annenberg said that when the zoning law was first passed the rural subscription price was raised to \$7.50 a year, and that a flood of letters from protesting farmers was sent to congressional representatives and to *The Tribune*. Because the paper was unwilling to discontinue its service or to work handship on the rural subscriber, a voluntary return to the \$5 rate was made.

"The bulk of our circulation goes to newsmen through express companies and baggers," he added. "They make money at an average cost of 72 cents the 100 pounds. The postoffice average cost per 100 pounds is \$3.50. Only the 55,000 copies of the total of 675,000 daily go through the mails. On Sundays *The Tribune* mails only 7,000 copies out of 1,025,000. Despite this, 25 per cent of all the mailing room expense of the paper goes for the 55,000 rural subscribers, and \$75,000 was invested in special mailing equipment for them alone. The present some low rates are exorbitant."

### An Unusual Communication

BY ELMER DOUGLASS.

Just before I left for my vacation, I received the following unusual communication from Mr. J. K. Smith on behalf of WBBM.

In order to keep the record straight I think it is best to print the communication just as received: "Stewart-Warner Speedometer Corporation, Executive Office, Chicago, U. S. A., August 20, 1925.

"Mr. Elmer Douglas, 'Care Chicago Daily Tribune,' Chicago, Ill.

"Dear Mr. Douglas: You may know that Stewart-Warner Speedometer Corporation is now interested in Radio Broadcasting Station WBBM to the extent of about one-half its time on the air.

"It has been brought to our attention on several occasions, by people connected with other radio advertising mediums, that at rather regular intervals Station WBBM comes in for a good panning through your radio column.

"Representatives of a rather reliable radio publication have hinted to us that this is largely due to a personal prejudice you have against the station, due to a practical joke which was played upon you on their opening night. Whether this be the reason or not, we have personally noticed that on several occasions Station WBBM has come in for what we think to be an entirely unjustified criticism from you. For example, we have read your remark that the piano which we are using in our studio is 'tin panny'.

"This criticism is, of course, absurd, inasmuch as we are using special Baldwin broadcast pianos, such as are used at most every other broadcast station in the city.

"*The Chicago Daily Tribune* has always been favored with our advertising, almost to the exclusion of every other newspaper in town. This, in spite of the fact that other newspapers have gone out of their way to be nice to us in editorial matters.

"Don't you think we have a right to expect *The Chicago Tribune* to treat us with as much consideration, at least, as other Chicago newspapers with whom we do no advertising business?

## "These are Mine"

Our personal possessions are more valuable than any others like them, because they are ours. They express our good judgement, discriminating taste, material prosperity.

They are further endowed with the value of sentiment.

But their very possession often seems to tie us to them; sometimes their care chafes us. Long coveted trips are deferred, vacations postponed, different, more comfortable living denied us because of them

—unless we know about Household Goods Storage.

These cherished possessions of ours will be carefully and painstakingly prepared for storage in clean, airy Household Goods Depositories. Then we are once more free and foot-loose to go where we will—be it a month, a year, or more.

Deprecates Gossip He'll Be Power in News.

(Picture on back page.)

Iver Norman Lawson, nearest of kin and only living brother of the late Victor Lawson, arrived in Chicago yesterday from his home in San Diego to attend the Lawson funeral at New England Congregational church this morning.

Mr. Lawson is a reticent, modest man of 60 years, tall, slender, deep shouldered, and smooth shaven. He deprecates any suggestion that he is to be an active factor in the future of his brother's great newspaper property, the Chicago Daily News.

His own career he declined to give any account, and was solicitous that he should not in any way be exploited as a successor to his brother.

Unless there is delay in finding the will of Victor Lawson, or in the opening of the vaults containing his papers, the provisions of that document will be made known to the public tomorrow afternoon.

Radio Memorial Tonight.

Victor F. Lawson's favorite song, "America the Beautiful," will be sung by a quartet as the prelude to a memorial service in honor of the late publisher to be broadcast tomorrow evening at 8 o'clock from the Sears-Roebuck agricultural foundation station, WLS.

All radio stations within a fifty mile radius will remain silent during the program. The opening number is to be sung by the quartet from the light opera company of station WEBB.

Walter L. Fisher to Speak.

Former Corporation Counsel Walter L. Fisher will deliver the eulogy. Mr. Fisher was an intimate of Mr. Lawson and one of his attorneys for years.

The service will end with another number, "Lead, Kindly Light," by the WEBB quartet. Ralph Emerson will play the organ accompaniment.

Five hundred manufacturers and five hundred retailers will meet this week at the convention of the National Association of Retail Clothiers at Hotel Sherman to devise ways and means to cut all waste from the clothing industry with the ultimate object of cutting high clothing prices for the consumer.

Members of the association already have given the problem a year's study. Ray E. Bigelow of Seattle, the president, said, and now, having the manufacturers in cooperation with the men who sell the product, he added, a committee will be appointed to go actually at the business of cutting out the waste and reducing the costs.

There will be sessions at the convention each day this week and each day the best dressed clothier will be picked from among the membership and a silver cup presented to him.

## JEW SAVES 'CHURCH OF PRESIDENTS' FROM BEING SOLD FOR TAX

Long Beach, N. J., Aug. 23.—(AP)—St. James' Protestant Episcopal church here, in which six Presidents of the United States have worshipped, was saved from the auctioneer's hammer today by Ernest Levy of Long Beach and New York, a Jew, who paid in full the city's assessment of \$600 for a paving tax.

Bernard Sandler of Long Beach, who presented the check for the full amount of the assessment to the Rev. Rev. Albion N. Knight, bishop coadjutor of New Jersey, said on behalf of Mr. Levy that the sale of the chapel would have been a "sacrilege."

It has become a national shrine, in a way, the Westminister abbey of America," Mr. Sandler said. "Neither Mr. Levy nor myself belong to your religious faith, but we both worship the same God."

BEACH CROWDS LESSEN; ONLY 100,000 ARE OUT

The beginning of the end of the bathing season was ushered in yesterday with large crowds still milling on the sands and in the water at the beaches, in far smaller numbers, however, than on the previous Sunday, and with a chill apparent in the lake waters. All of the larger beaches reported a big attendance, but added the qualifying phrase, "for this time of the season."

Probably the total attendance at all beaches in the city did not exceed the 100,000 mark, and may have fallen below that figure. No accidents were reported.

WELLINGTON, N. Z., Aug. 23.—(AP)—The greatest gathering of warships ever seen in the southern hemisphere assembled in Wellington harbor yesterday. The visiting American fleet was augmented by squadrons of destroyers from London and Lyttelton. This made more than 40 vessels, exceeding the number that visited Sydney and Melbourne.

The fleet presented a majestic sight, particularly during the searchlight display at night. The farewell hall given by Admiral Coombs aboard the Pennsylvania was a brilliant function.

Rear Admiral Magruder, in a farewell message, said he doubted if in the history of the cruise of any foreign fleet such a cordial reception had been extended as that given the United States fleet by the people of Australia, Tasmania, and New Zealand.

## EIGHTY SNOOPERS RAID ROADHOUSES NEAR MILWAUKEE

Milwaukee, Wis., Aug. 23.—(AP)—Four widely known roadhouses, including the Golden Pheasant and the place formerly known as Sam Pick's, were raided last night by federal prohibition agents, who launched a strenuous drive on places throughout the country and on the edge of Waukesha county.

The Red Mill, on the Green Bay road and the Midway, on highway 19, were among the first four visited by the dry agents.

According to John B. Madden, chief federal enforcement agent for Wisconsin, quantities of liquor were seized. This will be analyzed and whatever evidence is obtained will be laid before the next federal grand jury.

Eighty agents from districts in this state and Illinois participated in the raids.

## ELLINGSON GIRL TO BE SENTENCED ONE TO TEN YEARS

San Francisco, Cal., Aug. 23.—(AP)—Convicted of manslaughter by a jury late last night, Dorothy Elingson, 17-year-old confessed matricide, has been returned to jail to await sentence by Judge Harold Louderback Wednesday. The verdict carries a penalty of one to ten years. Dorothy will be eligible to parole after the first year.

The Elingson girl took the verdict calmly. She was showing gum when the jury filed in. During her previous trial the girl was emotional and at times hysterical. As a result, the murder trial was halted and a sanity hearing held instead. She was found insane and committed to the insane hospital, but after a month's detention alienists pronounced her sane and she was again brought to trial for murder.

Since then Dorothy has become a convert to the Roman Catholic faith and throughout her trial on the murder charge the Rev. A. R. Drathman of St. Ignace church sat near her.

## BANCROFT BODY LEAVES FRISCO FOR GRAVE HERE

San Francisco, Cal., Aug. 23.—(AP)—The body of Edgar A. Bancroft, American ambassador to Japan, who died at his post, was taken from the Japanese cruiser Tama here today and placed aboard a train for Chicago, where funeral services will take place.

As the flag-draped casket was borne from the cruiser, her guns boomed a salute, which was answered from the United States receiving ship at Goat Island. At the Embarcadero a parade was formed, consisting of 100 Japanese sailors, American sailors, marines, and coast artillerymen. On an artillery caisson the body was escorted through a portion of the business district.

The casket was placed on a special observation car attached to the Overland Limited. Four noncommissioned army officers from the Presidio will stand guard throughout the journey. Accompanying the body are Consul General Caldwell, Lieutenant Commander Helm, naval attaché at Tokyo, and Dr. Frederick Bancroft of Chicago, brother of the late ambassador.

## GERMANY ON ITS FEET TO STAY, IS HINDENBURG VIEW

Washington, D. C., Aug. 23.—(Special.)—The stabilization of economic and social conditions in Germany will continue to be expressed by President von Hindenburg in a message to American business men made public today, through Merle Thorpe, editor of the Nation's Business, official organ of the United States chamber of commerce.

The old commander of the Kaiser's army, who, Mr. Thorpe said, has broken with the monarchists and the reactionaries, generally, declared: "I am much gratified to hear that American business men are taking such a deep interest in the conditions of present-day Germany. The social confusion resulting from the outcome of the war now seems definitely to have given way to a readjustment. I am firmly convinced that this stabilization will continue to improve in Germany as peaceful conditions are restored among the peoples of Europe. I, for my part, am determined to do my utmost toward such restoration and preservation of peace."

## GIRL SAYS AUTO SHEIKS DETAINED HER TILL 3 A. M.

Two alleged automobile sheiks, Peter Weber, 625 North Lincoln street, and Frank Ledebach, 1633 Hollywood avenue, were arrested early yesterday by Summerdale police on complaint of Rose Weber, 17 year old nursemaid in the home of J. M. Bell, 5434 Kenmore avenue, that they had made improper advances to her after keeping her out all night.

Weber, a bathing beach acquaintance, called for the girl at a dance Saturday night. With him was Ledebach. Instead of taking her home, they drove to a beach house near Tessville, where, until 3 o'clock, they refused her pleas to be taken home.

At Elmdale and Glenwood avenues the car was stopped and the advances made, she said. The girl screamed and escaped, stumbling later into the Summerdale station to tell her story. With her aid the police found Weber's car near Clark street and Hollywood avenue, arresting the men as they attempted to enter it.

## U. S. EMPLOYEES ASK A MINIMUM SALARY OF \$1,500

Washington, D. C., Aug. 23.—(Special.)—Proper administration of the classification act of 1923, amendment of the attending salary schedules, classification of all field employees, and liberalization of the federal retirement law are some of the pressing questions which will come up at the eighth annual convention of the National Federation of Federal Employees, to be held in Boston the week of Sept. 7. A resolution will be presented urging congress to fix \$1,500 as the minimum annual salary of all federal employees. Proponents of this measure point to the great number of technical experts who are constantly resigning from the public service to seek more remunerative positions with commercial concerns.

## GAS PLANTS TO AID N. Y. IN EVENT OF COAL STRIKE

New York, Aug. 23.—(Special.)—If anthracite miners strike on Sept. 1 the gas companies of New York state will be prepared to help alleviate the fuel shortage, according to the New York state committee on public utility information.

Since the general strike of 1922, the committee states, gas plant capacity amounting to a production of 60,000,000 cubic feet a day has been put into operation, so that the gas manufacturing establishments of the state now have a daily capacity of 450,000,000 cubic feet.

"In addition," the bulletin sets forth, "gas plants are now producing coke suitable for domestic use at the rate of 4 million tons a year, or about one-twelfth of the state's annual requirements of hard coal. Coke is steadily displacing hard coal for use in ranges and furnaces, wherever it is available."

The senator will stop in Vienna before proceeding to Geneva, where he intends to make a study of the league of nations organization.

## CRIME BODY HEAD FOR LYLE POLICY, IF WITHIN LAW

Habitual criminals should be dealt with by law-enforcing agencies with the greatest severity, declared Charles R. Holden, president of the Chicago Crime commission, yesterday, in commenting upon the campaign being

waged by Judge John H. Lyle against criminal repeaters. "Keep the crook in jail while he awaits trial, instead of permitting him to gain freedom on bonds and use that freedom in committing other crimes," Mr. Holden said, adding, however, that the method of keeping criminals imprisoned must be within legal means.

Mr. Holden spotted Judge Lyle that he would, through the crime commission, investigate any individual cases

of men repeatedly under criminal charges in which the judge thought justice was not being fully done. In searching out single cases a means will be found to provide a certain check against miscarriages of justice, Mr. Holden said.

There's only one correct way of making Tea

1. Put in one teaspoonful for each cup of tea.
2. Be sure the water is poured into the Teapot the moment it boils. Allow to stand for 4 or 5 minutes to infuse.
3. Put a little milk or cream into each Cup before serving the Tea—it improves the taste.
4. Add sugar to taste.
5. Be sure you use—

Warning! This biography of Bob Fitzsimmons was written only for red blooded sportsmen and lovers of peppery anecdotes. To those who read this knockout sporting yarn, we guarantee a full measure of thrilling ring encounters, of delightful pen pictures of Fitz's personality and home life, of a treat to an unending stream of funny incidents, revealing Fitz's jovial and irrepressible nature. . . . Ladies and gentlemen [ladies, you must meet the wonderful wife of Fitz]—this is the inside story of a man and a career that made sport history. It was written exclusively for Liberty by Robert H. ## PIRATES-GIANTS BREAK EVEN IN DOUBLE-HEADER

New York, Aug. 23.—(AP)—The Pittsburgh Pirates drew an even break in a twin program with the New York Giants today, winning the second game, 2 to 1, after losing the opener 7 to 4.

The Pirates continued to lead the National league flag race by a five game margin. In the first game, a New York cast-off, drove in the winning run for the Pirates.

A crowd of 55,000 saw the games, thousands of others being turned away.

New York won the first game through timely hitting against veteran pitcher, Burt Hooten, in early innings. Inability to hit with men on bases proved costly to the Giants in the second game as they got only two hits off 18 of their number were left on bases.

**PIRATES WIN**

Pittsburgh, Aug. 23.—(AP)—The Pittsburgh Pirates won the second game of a twin bill with the New York Giants today, 2 to 1.

The Pirates, who were leading the National league flag race by a five game margin, continued their winning streak today.

The hot weather was conducive to the success of the regatta. Men shed their coats and hats, and the women wore their lightest attire while they paddled around in their bare feet.
